

The Soft Landing System - There when you need it.

WALLET BAG

SOFT LANDING SYSTEM

WALLET BAG

Dimensions: L2400mm x W1800mm x H1200mm (1200 Type)

Dimensions: L2400mm x W1650mm x H600mm (600 Type)

Should customers already using the “Eco” Standard bag have a need to provide protection around vehicles, we can offer the **Wallet Bag** as a flat-pack which can be used to convert “Eco” Standard bags into Lorry Bags.

- Wallet Bags are delivered ready to use and require no pumps/power sources of any kind and are low maintenance.
- Wallet Bags have a 3 year life expectancy and an inspection can be carried out at this point to ensure suitability for continuous use. In certain cases, repairs can be carried out on site.
- The outer casing is treated with flame retardant chemicals but is not fire proof. The bag is coated to resist water and mortar adhesion which substantially enhances the durability of the product.
- Full installation training, certification, Risk Assessments, Method Statements and test data are all available to substantiate the product usage.
