

Environmental Policy Statement of Intent

The aims and objectives of the Company are:

1. To continually monitor the environmental impact of the organisation, and to modify working practices to reduce this impact where practical
2. To advise the staff of our group and the suppliers their responsibilities, particularly by way of the use of environmentally damaging consumables and the proper disposal of waste arising from processes carried out by the company.
3. In purchasing, the company will actively seek to select items/products which have the least impact on the environment taking into consideration both use, and ultimate disposal of these items/products. The Company will ensure that wastes arising from its activities are disposed of responsibly, and in line with legal requirements.
4. The Company will endeavour to minimise the use of energy, and will encourage design aimed at energy conservation.
5. The Company will examine its entire group to determine the potential contamination to the surrounding environment. All practicable steps will be taken to mitigate environmental damage should such a risk be identified. Development of new products will be undertaken in an environmentally sound manner, with regard to relevant legislation at the time.
6. The Company will communicate this policy to all employees, contractors and major suppliers, and will review the policy annually.
